

Change Log for Pervasive Data Integrator 9.0.3

This document lists defects and selected customer enhancement requests addressed in the current release. Fixes are grouped by feature and listed by change request number. You may wish to review change logs for earlier releases that were skipped in upgrading to this version.

Data Access Connectors	
35376	Problem: Error in HL7 schema specification handling. Solution: Fixed. Date Fixed: 5/15/08
35546	Problem: HL7 target field pad character uses space as default instead of "none." Solution: Fixed. Date Fixed: 5/8/08

Integration Engine	
35403	Problem: Salesforce transformation with date data type fails on Linux when executed through Java SDK. Solution: Fixed Date Fixed: 5/14/08

Integration Server	
35373	Problem: Function getEngineLog() too slow to open large log file. Solution: Fixed Date Fixed: 4/17/08
35374	Problem: Startup.bat file fails when Integration Server installed on drive other than default C. Solution: Fixed Date Fixed: 5/22/08
35376	Problem: Engine Service for Progress Sonic ESB stops responding when attempting to process multipart message. Solution: Fixed Date Fixed: 4/16/08

Map Designer	
33122	<p>Problem: Invalid array size settings should not be allowed.</p> <p>Solution: Fixed.</p> <p>Date Fixed: 4/23/08</p>
35417	<p>Problem: PSQL v10 connections display some long database names incorrectly.</p> <p>Solution: Fixed.</p> <p>Date Fixed: 4/24/08</p>
35444	<p>Problem: Opening Map Designer returns licensing error when installed on drive D.</p> <p>Solution: Fixed.</p> <p>Date Fixed: 4/24/08</p>
35452	<p>Problem: New Microsoft Visual C++ compiler causes run-time error in Map Designer.</p> <p>Solution: Changed Map Designer code.</p> <p>Date Fixed: 4/24/08</p>
35454	<p>Problem: Schema mismatch in transformation causes connection problem during process execution.</p> <p>Solution: Fixed.</p> <p>Date Fixed: 4/25/08</p>

Process Designer	
33451 33452	<p>Problem: Deploying process to production machine with different session information causes process to fail on target side of transformation. Source side of problem was fixed in 9.0.0.</p> <p>Solution: Fixed for target side.</p> <p>Date Fixed: 4/14/08</p>
35232	<p>Problem: Salesforce.com connection fails after several hours of execution with errors 25519, 28025, and 28030.</p> <p>Solution: Made memory management improvements.</p> <p>Date Fixed: 4/16/08</p>
35359	<p>Problem: Setting transformation to delete message object after completion causes unknown error in process that tries to access object.</p> <p>Solution: Enhanced error checking and error messages to improve debugging for users. It is also recommended to create message object in start step of process instead of in Before Transformation event of transformation.</p> <p>Date Fixed: 4/14/08</p>
35545	<p>Problem: Reserved ampersand character causes error in transformation of NCPDP to XML.</p> <p>Solution: Added enhancements for handling of ampersand and selected other special characters.</p> <p>Date Fixed: 5/8/08</p>
35692	<p>Problem: Unable to append data to DJMessage object when used as target.</p> <p>Solution: Fixed.</p> <p>Date Fixed: 6/6/08</p>

Rapid Integration Flow Language (RIFL)	
35556	Problem: Process Designer stops responding when validating or saving user-defined RIFL script. Solution: Fixed. Date Fixed: 5/12/08

Repository Manager	
35374	Problem: Application fails when installed on drive other than default C. Solution: Fixed Date Fixed: 6/11/08
