

PSQL v9 SP2 History Notes

PSQL v9 SP2 (9.5)			
9.50.077.002	All platforms except NetWare		
9.50.077.003	NetWare		
CR Number	Component	Subcomponent	CR Synopsis
aus#52350	build		Change Download File Names
aus#53749	build		Change the PSQL install self-extracting exe names for Win and NW sezs
aus#53809	build		Add jpscs.jar and pvjdbc2.dll to the JDBC SDK self-extracting zip
aus#53844	build		More changes to SDK sez names
aus#51061	communication	comsrv	Enhancement to CR49101 to enable synchronized signalling of CE after a SQL update.
aus#53654	communication	comsrv	stress test to 64-bit W2003s GPFed
aus#53950	communication	nwserver	SPX communications hung on NetWare when running stress
aus#53743	communication	w32server	Running CE on WXPP to WXPP w/ server engine, NSL crashes
aus#53395	communication		Network communication test fails to throw the status error code 5001 with wire encryption set to on
aus#53406	communication		The network communication test fails between Wge and Client with NETBIOS protocol.
aus#53518	communication		Server crashes if MgrMaxConnections exceeded
aus#53519	communication		_LnaSetConnectInfo shouldn't use global vars
aus#53521	communication		LNA client info struct free'd for running thread
aus#53537	communication		Vstress when run on multiple clients returns "Connection attempt timed out." on one of the clients
aus#53400	components_sdk	dto	DTO need to be updated for Backwards compatibility.
aus#53529	components_sdk	javaapi	JCL Regression - Backward compatibility JCL Harness Execution Failed
aus#53307	components_sdk		Auto-create Linux SDK zips during build time
aus#52154	devcore	common	warning cleanup - pvmetadata
aus#53375	devcore	crypto	Encryption causes NW abend or Btrieve Status 160
aus#52889	devcore	csi	Btrieve URL access to secure database using table= fails with status 170/94
aus#53055	devcore	csi	CSI SetColumnPermissions fails with the PS unknown error code
aus#53056	devcore	csi	CSI AddGroup returns wrong error codes
aus#53092	devcore	csi	CSI user that lacks permission may update other user's info
aus#53169	devcore	csi	The 5th Btrv login gets status 170 on NetWare
aus#53431	devcore	csi	NW 65 OS runs out of memory running Btrieve regression
aus#47497	devcore	mkc	Fix delayed sync close
aus#52770	devcore	mkc	Join query returns "Currency not on record" with dynamic cursor

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53163	help		Change in the color of the link after navigation
aus#54007	help		Change JavaHelp preferences INI file to display SDK docs by default
aus#52719	install	psa	PSQL NetWare Server install does not invoke PSA to archive old components
aus#52929	install	psa	PSA Network Test failed during PSQL Client install on Win ME
aus#53015	install	psa	After re-install PSQL 9.5 Server/WGE, PSA Transactional Test failed and there are no DDF files in samples folder
aus#53140	install	psa	Relational Engine Test Results fail to create table on Windows SBS only
aus#53155	install	psa	Button is not focused properly during installation.
aus#53288	install	psa	On Win98, if we set the PSALog file path in ptksetup.ini and try to install PSQL, then a warning related to the file path is thrown during installation
aus#53290	install	psa	PSA Network Test failed during PSQL 9.5 Client install on Win98 SE
aus#53303	install	psa	Many DLLs under C:\Program Files\Common Files\Pervasive Software Shared\Pvswcore are not present after PSQL WGE install on Win98
aus#53349	install	psa	On WIN ME, after we upgrade PSQL WGE from V8.10 to V9.5 and restart the machine, PSA tests failed
aus#53422	install	psa	Normal Installation of PSA WGE Upgrade from 9.10 to 9.5 does not reflect changes in the registry settings and in PCC.
aus#53474	install	psa	Do not allow client install over existing server
aus#53610	install	psa	PSA analyse and archive function is getting called twice during installation of PSQLV9.5
aus#53824	install	psa	The readpsa file is not updated with recent PSQL version and year details of PSQL 9.5
aus#52201	install	psql	PSQL installed JRE should not prompt for updates
aus#52854	install	psql	Build 15: No data in DEMODATA tables, PSA trans tests fail
aus#52917	install	psql	NetWare OS cannot load after installing PSQL 9.5 Server Engine
aus#53080	install	psql	Update crtsysdb.nlm to create tempdb
aus#53126	install	psql	Unable to launch PCC after performing a custom install.
aus#53136	install	psql	Netware install does not applied license given during the license prompt
aus#53141	install	psql	When trying to install the older version of PSQL(9.10) upon the latest version of Pervasive SQL 9.50, it doesn't prompt with an appropriate message.
aus#53188	install	psql	Rollback fails to remove all the files and folders
aus#53238	install	psql	Silent Install - Product version of PCC.exe represents 9.50.035.000 after upgrading to 9.50.036.000
aus#53277	install	psql	NW install should not put uninstall on client machine

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53310	install	psql	NW install should archive old PSQL install
aus#53490	install	psql	Client install to Win ME does not set the path to PVSW\bin
aus#53491	install	psql	NW install leaving or installing unnecessary folders under sys:pvsww
aus#53492	install	psql	NW install should put DOS requesters on server
aus#53710	install	psql	NT4W: Proc Entry Point __lc_collate_cp not found in MSVCRT.DLL reported during silent install
aus#53739	install	psql	NetWare Install removes client parts
aus#53805	install	psql	client/server install error on win98SE/winNT4
aus#53818	install	psql	WGE won't install to 64bit Windows
aus#53829	install	psql	install fails to populate defaultdb, demodata, etc.
aus#51906	install	psqlunix	When Server upgrade install using RPM done on Red Hat 2.6 (v8.6 - Bld # 192.032 + V9 SP1) gives segmentation errors
aus#51907	install	psqlunix	After Server upgrade install using RPM done on Red Hat 2.4 (v8.6 - Bld # 192.032 + V9 SP1) the services are not getting started.
aus#51908	install	psqlunix	When Server upgrade install using TAR done on Red Hat 2.6 (v8.6 - Bld # 192.032 + V9 SP1) gives segmentation errors and is not successful
aus#51909	install	psqlunix	After Client upgrade install using RPM done on Red Hat 2.6 or 2.4(v8.6 - Bld # 192.032 + V9 SP1) and running the dsnadd or odbctest commands show errors that driver not found related to "odbcci.so"
aus#53354	install	psqlunix	On Linux 2.4 kernel machine, after we upgrade PSQL Server from V8.7 to V9.5, the services are not getting started automatically and services are not stable even if we start the services manually
aus#53355	install	psqlunix	On Linux 2.4 kernel machine, after we upgrade PSQL Server from V8.7 to V9.5, no files found under demodata, tempdb and system folders except the restore folder
aus#53360	install	psqlunix	Tarball installation of PSQL V9.5 Linux Client, Linux PCC and Linux DOCS create two folders namely psql and psqlclient instead of just one psql folder
aus#53361	install	psqlunix	If we do a tar installation of PSQL Client on Linux, the postinstall scripts for PSQL, PCC, DOCS throw some errors
aus#53386	install	psqlunix	LINUX: Library Symbolic links not setup correctly
aus#53388	install	psqlunix	LINUX: startup scripts not created on SuSE v9 32-bit Linux
aus#53451	install	psqlunix	Linux: jnibtrv.so not installed
aus#53728	install	psqlunix	PCC Install on Linux error messages when no engine present include %pre
aus#53731	install	psqlunix	During Linux client install cp command errors seen

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53732	install	psqlunix	During Linux PSQL server install a psregsvr usage list appears
aus#53746	install	psqlunix	Error creating systemdb during upgrade from V9.10 to V9.5 on Linux
aus#53792	install	psqlunix	Errors seen during PCC and DOC installs on Linux client
aus#53898	install	psqlunix	Failed to open error seen during Linux client install
aus#53942	install	psqlunix	pccpreinstall.sh doesn't check the installed Java version correctly
aus#53975	install	psqlunix	PCC linux install should warn user with better message on failed pccpostinstall.sh
aus#53982	install	psqlunix	Psql Docs rpm install can't find docsinstall.sh script
aus#53994	install	psqlunix	Error seen during Linux doc install
aus#54005	install	psqlunix	Linux install fails to install the sdk mini readmes
aus#53142	install	uninstall	While trying to uninstall the Pervasive System Analyser, during the uninstallation process. In the word Uninstall Shield the letter "U" is in small letter.
aus#53151	install	uninstall	During uninstallation from Add / Remove programs receiving error message 1905
aus#53365	install	uninstall	Uninstall wizard prompts to close Real Player, Microsoft Word and MSOutlook with Windows XP.
aus#50343	install		CM: Create Linux slot under the installuni directory
aus#51761	install		When WGE upgrade install (v8.5 FCS - Bld # 189.00 + V9 SP1) done on Windows 2000 Server Japanese, then repair it and in Install shield 'remove' is selected instead of 'repair' as default
aus#51767	install		Proper Message is not displaying during unistallation when PCC is opened on WinXpPro
aus#51864	install		PSQL install log created during P.SQL V9.1 Server installation on NetWare is incomplete.
aus#52534	install		BANNERS at start of install show garbled Japanese letters
aus#52906	install		In ControlPanel>Add/Remove Programs the Support information for Pervasive.SQL is still showing 9.10
aus#52907	install		Uninstallation is not removing many files under Pvsw folder
aus#52908	install		The License Agreement is still showing PSQL9(9.4)
aus#52909	install		The ClassPath which includes the jarfiles path is still pointing to C drive, though the installation is done on to D drive and the jar files exists in the D drive
aus#52927	install		Upgrade of Psql 9.5 WGE from V9.1 to V9.5 in Win2k Prof. is not working fine.
aus#52928	install		Unable to open install.log through shortcut in WinME.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#52943	install		VSL Environment Variable set incorrectly
aus#52957	install		Silent install of client reboots Win2K-Pro in midstream
aus#52995	install		TempDB database is not getting created on Linux OS
aus#53014	install		JCL should install with Psql product
aus#53016	install		Installation onto a Netware machine from a windows machine is creating a "PSQL Netware Server" entry in the control panel.
aus#53017	install		On Netware, the manifest.csv file we find the size of all files as zero.
aus#53018	install		On NetWare German 6.0, it fails to load NWODBCEI.NLM, NWSQLMGR.nlm, CNSTRING.NLM
aus#53031	install		jdbc jni dll needs to be installed into pvs\bin
aus#53067	install		V9 OLEDB provider missing from 9.5 install
aus#53083	install		Client install from silent install script doesn't work on Windows 2000
aus#53100	install		During Custom install the user is unable to select the appropriate icon to identify the type of the installation.
aus#53139	install		The Build Version for the utilities is showing 033.000 instead of showing 033.001.
aus#53184	install		DefaultDB and Demodata database not created on SMB server
aus#53194	install		Ignore button disabled in the conflicting programs page
aus#53196	install		W3odbces.dll is showing Product Version as 9.50.999.000
aus#53199	install		When we upgrade from V8.10 to V9.5, the table department is not updated
aus#53201	install		After upgrading from V8.7 to v9.5, the demodata DSN points to older versions of demodata folder if custom install is selected
aus#53222	install		Silent install - Unable to start PCC
aus#53236	install		Silent Upgrade - Fails to upgrade completely from 9.10.020.000 to 9.50.036.000. A copy of installation file(9.10) is left out during upgrade.
aus#53237	install		Relational engine and Transactional engine services are not created in the services control panel after upgrading from 9.1 to 9.5 on SBS
aus#53240	install		PSQL V9.5 Netware installation is not working.
aus#53246	install		Silent Install - Transactional and Relational engine fails with the Status error code = 170 after upgrading from 9.1 to 9.5
aus#53253	install		CLASSPATH incorrect if PSQL installed in different directory.
aus#53280	install		Japanese Install resources are old
aus#53287	install		Install.log is not created under pvs\ folder on Win98
aus#53291	install		'\ is missing between PVS\ and Bin in CLASSPATH on Win98
aus#53292	install		On Win98, after installing PSQL 9.5, we find many errors in PVINST.log

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53299	install		NetWare install leave a footprint on "client" machine
aus#53301	install		On Win98, when we install PSQL V9.5 WGE, we don't find any DLLs under pvsw\bin\trace\rel and pvsw\bin\trace\trace.
aus#53302	install		Installation PSQL V9.5 onto DDrive still creating an empty PVSW folder on CDrive.
aus#53346	install		In Win98,Unable to open PCC through Run command after upgrading from V8.10 to V9.50.Becoz Path doesn't include C:\PVSW\BIN
aus#53348	install		When we upgrade PSQL WGE from V8.10 to V9.5, the ClassPath includes only one file, namely C:\PVSW\BIN\JPSCS.jar file twice. The other two filenames are missing.
aus#53353	install		WGE Install Failure on Win98(Fresh OS Machine)
aus#53399	install		PSA install is not updating the psa .dat files
aus#53425	install		Pvswarch folder gets deleted after restoring the archived components in PSA Upgrade.
aus#53433	install		Do not install timgrb.dll
aus#53458	install		In Win2003 Server Japanese,Error opening Registration page at the end of PSQLV9.5 installation.
aus#53476	install		In Ptksetup.ini,the ICON key under [Pervasive.SQL Engine] section is not working in case of PSQLWGE.
aus#53478	install		Build level in the registry,Bti.ini file and PSAlog.txt file is showing 999.
aus#53479	install		Both v8 and v9 entries available in the Start Menu simultaneously
aus#53581	install		The client upgrade in silent mode throws error windows on Win98
aus#53600	install		pvddl error thrown during the silent upgrade of PSQL WGE on Win98
aus#53601	install		In case of PSQL WGE, the ClassPath, which includes the jarfiles path is set to C drive even though the installation is done onto D drive and the jar files exist in D drive
aus#53633	install		On Netware 6.0, after upgrading from V9.10 to V9.5, only 3 system tables(X\$file,X\$field,X\$Index) are found in demodata.
aus#53637	install		On NetWare, the PATH for many files is shown wrongly in Manifest.CSV file.
aus#53649	install		On NetWare, after upgrading from V8.10 or V8.7 to V9.5, V8 PCC is opened at the end
aus#53658	install		Client install missing pvsw\bin\dos\alt folder and DOS requestors
aus#53665	install		Installation of PCC/DOCS in Linux is giving two warnings at the end of installation.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53674	install		Installation of WGE is not creating the PSQL entry in the ControlPanel>Add/Remove Programs.
aus#53736	install		Installation onto Netware 5.1 machine is Abending
aus#53755	install		On WinNT Workstation, unable to open "What's New" and "Documentation" from StartMenu
aus#53760	install		Install to call dsname with normal open mode during DSN creation
aus#53825	install		Default Databases and DSN's are not found in PSQLV9.5 Server.In fact the Dbnames.cfg file is missing.
aus#53831	install		NW install says that install was interrupted, try again later...
aus#53913	install		Install: Cannot upgrade from psql 9.11 to 9.50
aus#53920	install		The use of comma not required in a sentence on the Repair/Remove window
aus#53921	install		After doing an Upgrade from any lower version to V9.5,we don't find any DDF and MKD files under DEMODATA folder.
aus#53933	install		In Error message seen during Linux client install
aus#53936	install		WGE install fails to create dbnames and DEMODATA DSN on Win98
aus#53939	install		Repair feature is not working in PSQL9.5 Server/Client,when we install PSQL it using self-extracting image.
aus#53985	install		Install prompts for license when upgrading from 9.11 to 9.5 Server Engine
aus#54008	install		Windows install fails to install the sdk mini readmes
aus#54033	install		Product version stamped wrong for Btrieve Function Executor
aus#54043	install		NW install from ISO image archived PSQL files on Windows machine and PSA tests failed
aus#53514	install_fts		Unable to start FTS(Full Text Search) service when FTS is installed along with PSQLV9.5 Server.
aus#53182	install_sdk	sdk	SDK install wizard shows different version while installing.
aus#53840	install_sdk	sdk	PDAC SDK sez is not extracting it zip files to temp folder in the 007 build
aus#52936	interface	dti	Unable to create temporary table using DTI
aus#53095	interface	dti	Backup Agent 1.1 stress test GPFs on PSQL 9.5, 9.0 and 9.10 if there are more than 860 files
aus#53218	interface	dti	DTI apps compiled with headers from 9.11 failed after upgrading to 9.5 engine
aus#53401	interface	dti	For Backwards compatibility, PvAddTable() API in DTI is not working fine if a table is added with indexes.
aus#53443	interface	dti	DTI Backward Compatibility: PvGetTableStat() API is failing to get table properties.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53450	interface	dti	DTI property indices are different on WGE than Server
aus#53712	interface	dti	PvDropDatabase not removing the dbname entry in dbnames.cfg
aus#53639	interface	jcl	JCL Regression : lstring testcase failed with "Length of the passed byte array does not match the length of the column" error
aus#53640	interface	jcl	JCL Regression : zstring testcase failed with "Length of the passed byte array does not match the length of the column" error
aus#53641	interface	jcl	JCL Regression : t_char testcase failed with "Length of the passed byte array does not match the length of the column" error
aus#53669	interface	jcl	\\aus-eng\vol1\psql9.50\054.000\include\btrconst.h missing define for create_tmp
aus#53846	interface	jcl	JCL Regression -JCL Automation Regression Failed in Execution.
aus#53883	interface	jcl	JCL -In JCL Automation regression set/get(getter/setter methods) by columnName -Failed
aus#53952	interface	jcl	JCL -In JCL Automation regression set/get(getter/setter methods) by columnName -Failed
aus#53019	interface	jdbc	JDBC Test cases failed with "LNA Session closed" error
aus#53038	interface	jdbc	JDBC: NullPointerException in LNASocketSession
aus#53149	interface	jdbc	JDBC: updateFloat on UBIGINT column throws NumberFormatException
aus#53157	interface	jdbc	JDBC: ObjectConverter.convertBigDecimal(Object) rounding error
aus#53172	interface	jdbc	JDBC: rounding issue when reading millisecond field from LNA packet
aus#53223	interface	jdbc	Unable to delete records from the table using PCC
aus#53268	interface	jdbc	Minor version to be changed from 00 to 50 in JDBC
aus#53317	interface	jdbc	The value inserted using addRow wizard for a numeric datatype is stored as 0.
aus#53366	interface	jdbc	JDBC Regression : Numeric Datatype Data fetching Failed.
aus#53408	interface	jdbc	Synopsys :JDBC Regression :column Type Name Mismatch
aus#53467	interface	jdbc	JDBC Backward Compatibility Regression: "binary_field" the Updation - failed
aus#53530	interface	jdbc	JDBC Regression - Boolean data retrieval failed
aus#53536	jdbc_tst	jdbc	JDBC Regression - Invalid SQL Query
aus#53543	jdbc_tst	jdbc	JDBC REGRESSION - "LNA Session Closed"
aus#53666	interface	jdbc	JDBC Regression -In JDBC Automation Regression many test cases failed due to "LNA Session Closed. "
aus#53766	interface	jdbc	JDBC Regression -In JDBC Automation Regression many test cases failed due to "LNA Session Closed. "

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53819	interface	jdbc	JDBC Regression -IN JDBC Regression -sa-2ks.4-wge - com.pervasive.jdbc.test.func.pstmt.SetDate_02 Test Case Failed
aus#53878	interface	jdbc	JDBC -In JDBC Automation regression Validates the getObject() method on a DECIMAL - Failed
aus#53879	interface	jdbc	JDBC -In JDBC Automation regression "Validates the getBigDecimal() method on a DECIMAL field " - Failed
aus#53880	interface	jdbc	JDBC -In JDBC Automation regression Validates setString and char data type -Failed
aus#53882	interface	jdbc	JDBC -In JDBC Automation regression Validates getTables method - Failed (Wrong tabel Name)
aus#53877	interface	jdbc	JDBC -In JDBC Automation regression Multiple Row Deleted Calls related test case Failed
aus#53417	interface	oledb	Error inserting a disconnected recordset into the database
aus#53469	interface	oledb	Error opening ADO recordset with a SQL call
aus#53389	interface		Zips for Linux SDK components
aus#53585	manuals	status_codes	Maintenance utility allows use of GUID key type if engine file format is not v9.50
aus#53179	manuals	user_guide	Pervasive Software folder not found under HKEY_LOCAL_MACHINE\SOFTWARE for SMB server
aus#53403	manuals	user_guide	Start up menu documentation of use Cache engine
aus#53332	manuals		SQL statement separator fails to work in the desired manner.
aus#53940	manuals		Exceeding the limit for record length mentioned in the documents does not raise an error
aus#53130	mkde	cache_engine	GetEqual on temp file fails with status 3 when cache engine is enabled
aus#53415	mkde	cache_engine	CE hangs performing read / write operations to Linux and 64bit Windows/Linux server engine
aus#44172	mkde	mkde	Index corruption can occur during disk full conditions - record and index information is not written atomically to disk
aus#47203	mkde	mkde	WGE rtns status 11 where svr engine returns status 35
aus#49992	mkde	mkde	Deletion of Bound DB files should not be possible using Btrieve Delete API
aus#50671	mkde	mkde	File Deletion is allowed (using Delete API kn ==-128) when it is Opened
aus#51299	mkde	mkde	ChunkInsert data corruption - FreeVarPage chain
aus#51304	mkde	mkde	ChunkInsert Data Coruption, VAT node split
aus#52451	mkde	mkde	Temp file APIs are not supported with cache engine enabled
aus#52610	mkde	mkde	Add a new open mode in the MKDE for SELECT FOR UPDATE
aus#53003	mkde	mkde	MKDE throws error dialog about L2 Bad compression

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53242	mkde	mkde	Slow performance for very large transactions with KPC
aus#53466	mkde	mkde	Cache engine can read pending pages during CEMPostProcess()
aus#53473	mkde	mkde	Cache Engine Should invalidate FCR when file is replaced.
aus#52894	mkde	nt	Windows stress hangs after running for 1.5 days
aus#52915	mkde	nt	Stress tests to Windows CPFed in ntdbsmgr
aus#53622	mkde	nt	URI escape char not processed correctly
aus#53860	mkde	nt	v9.5 file format size limit 128 not 256 G.
aus#53893	mkde	nt	MKDE free page list too small
aus#53531	mkde	nw	Status 2 returned from Win clietnst to NW 6 server
aus#53685	mkde	nw	Non accelerated open of temp file should fail w/status 88
aus#53687	mkde	nw	OS level Btrieve security regression suites failing to NW65
aus#53690	mkde	nw	NetWare stress test abended with cpu hog timeout
aus#53885	mkde	nw	Stress test to NW all clients and server are hung
aus#53275	mkde	unix	Linux stress test GPFed after running for 24 hours
aus#53517	mkde	unix	Files left open after Btrieve regression to Lnx svr completes
aus#53742	mkde	unix	DOS application returns status 2 to RH ES4 64-bit
aus#53747	mkde	unix	Stress test to Linux 64-bit crashed
aus#53924	mkde	unix	MKDE assert for bad compressed page seen on client with CE enabled
aus#46999	mkde		memory leak/performance hit on multiple set security's
aus#52299	mkde		File Growth Factor setting can be set too high
aus#52604	mkde		Exporting data from SQL Server to PSQL results in status 46 during chunk update
aus#53144	mkde		MKDE computes default cache incorrectly with 2GB+ ram and won't start
aus#53452	mkde		ntdbsmgr.exe crashes during install to Win XPP Sp2 machine
aus#53629	mkde		cloning of the rebuild file is not setting the recordcompression to "Yes" when given with the option recordcompression
aus#52075	psql		9.5 Scope Compiler Update
aus#52152	psql		w3dbav80.def and w3dbav90.def are badly messed up
aus#52155	psql		warning cleanup - srde\drmbtblb
aus#52594	psql		SQL_DATA_TYPE is returning wrong values for Date, Time and Timestamp datatypes
aus#52692	psql		SQLColumns Not Displaying the Proper values in few columns when View name is given as TableName in Input
aus#52712	psql		SQL_ADD operation with SQLSetPos API is giving Error and not adding the new rows

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#52726	psql		DTS Export/Import does not export data from pervasive DB to SQLServer DB
aus#52867	psql		After database is secured, when grant all on database is given to Master, then the value in Xr\$Rights column in table X\$Rights is showing 255 instead of 254.
aus#52890	psql		update on bigint column having expression throws numeric value out f range error
aus#52896	psql		Xr\$Type not displaying correct value.
aus#52897	psql		Shuffling in the values displayed by Xr\$Column and Xr\$Rights columns.
aus#52898	psql		After database is secured, when a table is created in database, then the value in Xr\$Rights column in table X\$Rights is showing 255 instead of 254 for Master user.
aus#52919	psql		There are lots of reads on dbnames.cfg in v9.50 because of TEMPDB.
aus#52921	psql		Permissions on views can be set on v1 database, which is not the expected behaviour.
aus#52937	psql		When the default value is a number in create statement, its failing
aus#52938	psql		In insert statement if the value for datetime column is "",its failing
aus#52939	psql		Update and delete are failing for datetime columns(seems to be a rounding problem)
aus#52940	psql		The 'SET DATETIMEMILLISECONDS =off' is not working for datetime
aus#52941	psql		Casting datetime to uinteger, usmallint and utinyint are failing
aus#52942	psql		CONVERT is failing when we do it with SQL_datetime and SQL_FLOAT
aus#52955	psql		DATEPART & DATENAME are not working properly for week
aus#52959	psql		pvmetadata uses one ClientID for multiple threads
aus#52965	psql		Btrieve access fails with status 170
aus#52974	psql		SRDE hang
aus#52978	psql		drop temp table using in dictionary should give proper error message
aus#52979	psql		Select into same temp table is deleting the temp table
aus#52984	psql		Select into temp table with duplicate columns need to give proper error message
aus#52985	psql		Select into temp table with single value is not working
aus#52994	psql		Create temp table fails with crash on linux
aus#53007	psql		Union in select into should give the proper error message
aus#53023	psql		Revoke on Procedure writes wrong value in Xr\$Rights instead of deleting the row.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53024	psql		User is not able to access view on restarting the server eventhough he has permissions.
aus#53028	psql		Local temp table created in the same session is not accessible inside the SP
aus#53065	psql		Select into temp table inside the SP is not working
aus#53068	psql		ntdbsmgr GPFed running stress test
aus#53170	psql		vstress causes server to run out of memory
aus#53210	psql		Memory leaks and asserts in metadata code
aus#53213	psql		Problem with converting to SQL_FLOAT
aus#53221	psql		Backout changes for numeric at LNA layer from SQL_C_CHAR to SQL_C_NUMERIC
aus#53247	psql		Optional parameter for Convert function.
aus#53256	psql		License administrator does not keep an open session with WGE in auto-load mode
aus#53271	psql		Hard-hang with DB corruption during SRDE run of Security suite
aus#53318	psql		Unable to Alter user to user name having 30 characters.
aus#53327	psql		LongMetadata:: Roll forward known bug fixes
aus#53334	psql		Using PvAddTable API in DTI if we add a table with index which starts the segment number from one, then Attrib.ddf, Field.ddf, File.ddf, Index.ddf, Relate.ddf, Trigger.ddf files are getting locked by the engine.
aus#53337	psql		Performance: 9.5 ODBC client showed 40% drop in performance
aus#53373	psql		DTI: some pcatalog APIs fail to Netware.
aus#53374	psql		Changing Bigint local variables and functions in ODBC client
aus#53569	psql		Memory leaks found because of andy's checkin for cacheing stored procedures
aus#53574	psql		Linux: mkded crashed after running TPCB and TPCC for 3 hours
aus#53579	psql		Restarting of WGE with active connections on Win98 raises W3DBSMGR error
aus#53595	psql		Update the CobolSchemaExec to support GUID data type
aus#53652	psql		PERF: changes for improving performance of URI based Btrieve Open calls.
aus#53655	psql		Stress testing - several clients running to NW server are hung
aus#53788	psql		"unload nwmpm100" abends
aus#53887	psql		W2K 32bit: NTDBSMGR crashed running stress test
aus#53050	sql	client	call to SQLConfigDataSource using a same name for client dsn name as server dsn fails

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53214	sql	client	Cannot connect to Pevasive 9.5 BETA server from Crystal Reports via client DSN
aus#53583	sql	client	Incorrect result for selecting numeric values
aus#53534	sql	datatypes	Special characters are taken as a Wild card characters
aus#53667	sql	datatypes	Invalid H character accepted as uniqueidentifier value
aus#53711	sql	datatypes	Memory leaks in UDF and longvar
aus#53369	sql	dbnames	Not able to create Tempdb client DSN on windows client to Netware Server
aus#53159	sql	dbxslt	bcfg gets 7004 on ID 135
aus#53599	sql	dbxslt	Not able to create the database on MTS server using MTS client
aus#52997	sql	drm	Long character Data: Alter table is unable to handle page size of the table
aus#53042	sql	drm	DRM test Cursor/OpenView gpfs ntdbsmgr
aus#53646	sql	drm	JDBC: Linux regression hangs on func.conn.TransIso_03 test case
aus#53765	sql	drm	DTI: Dti is allowing to create column with GUID datatype in a table with file version 9.0.
aus#53812	sql	drm	Memory Leaks :: LongChar Test Suites
aus#53949	sql	drm	Performance problem by opening the first table in the DRM.
aus#53398	sql	metadataengine	B_Create abends NW 65 server
aus#53117	sql	sql	2 new failures in BugsRegression with WGE on XP-Pro-SP2
aus#53190	sql	sql	Local temp table created in UDF not purged after execution when called the UDF inside SP
aus#53298	sql	sql	Linux: SRDE suites much slower with b37
aus#53312	sql	sql	Running Old JDBC regression suite on psql 9.5 server throws errors
aus#53414	sql	sql	LINUX: Hang while creating DBs
aus#53487	sql	sql	LINUX: mkded hang associated with @@SPID and TempDB
aus#53527	sql	sql	Able to insert a records with an exceeding value range for the data type uniqueidentifier.
aus#53528	sql	sql	Uniqueidentifier data type assigns 0 to the missing values in the record, which is inserted.
aus#53550	sql	sql	Convert function from uniqueidentifier to SQL_BINARY and SQL_VARBINARY fails.
aus#53659	sql	sql	LINUX: ODBC apps not able to connect to DSNs
aus#53714	sql	sql	Memory Leaks :: UDF Test Suites
aus#53927	sql	sql	Time datatype fails to round off.
aus#48231	sql	sqlengine	Should be able to use cursor name in prepare before having to do SQLExecute

CR Number	Component	Subcomponent	CR Synopsis
aus#50039	sql	sqlengine	Perf: ODBC has ODBC performance issues With Cached Selects
aus#51272	sql	sqlengine	Passing a null string in the SQL statement via JDBC causes the engine to crash
aus#52640	sql	sqlengine	Couple of issues with importing tables from SQL Server to PSQL via DTS
aus#52693	sql	sqlengine	COALESCE returns incompatible data type error
aus#52787	sql	sqlengine	Update on Unsigned integer family with Expression throws error message
aus#52887	sql	sqlengine	SRDE regression - AllView/RI suite results vary with each test run
aus#52888	sql	sqlengine	SRDE regression - Suite Allviews fails
aus#52900	sql	sqlengine	A SP generated file is out of sync
aus#52993	sql	sqlengine	Long charcter Data support: NTDBSMGR crashes when accessing table with default values
aus#53037	sql	sqlengine	Temp table created in parent sp is not accessible from child sp
aus#53069	sql	sqlengine	Memory leaks by calling an SP in V1
aus#53084	sql	sqlengine	Memory overrun and memory leaks with SQLColumns on views
aus#53098	sql	sqlengine	No record returned when a stored procedure is invoked from PCC
aus#53193	sql	sqlengine	Memory overrun by running JDBC regressions
aus#53226	sql	sqlengine	Incorrect value returned from output parameter by calling SP
aus#53244	sql	sqlengine	query returns incorrect results with SQLFetchScroll
aus#53250	sql	sqlengine	SRDE regression on NW:Rights.DDF and User.DDF files get locked when security is set to DB
aus#53257	sql	sqlengine	Set rowcount command is ignored in select statement
aus#53263	sql	sqlengine	DateTime test suites gets crashed during srde regression memoryleak testing.
aus#53371	sql	sqlengine	SRDE regression will not run to NW due to memory leaks
aus#53444	sql	sqlengine	Linux:when retrieving a record of bigint column with 0 value inside SP fails
aus#53453	sql	sqlengine	TempTable failures on certain Linux platforms
aus#53486	sql	sqlengine	Rtrim and ltrim functionality in select statement swapped
aus#53502	sql	sqlengine	SQL engine does not allow user to create indexes on uniqueidentifier columns
aus#53504	sql	sqlengine	SRDE regression:unexpected results when retrieving a record using datetimedatatype
aus#53510	sql	sqlengine	Group By clause with uniquidentifier column is giving Btrieve Error 49
aus#53554	sql	sqlengine	Incorrect result returned after casting uniqueidentifier datatype to binary
aus#53577	sql	sqlengine	SQL Server denies aggregate function count with uniqueidentifier but PSQL does it by taking the column name as argument.
aus#53586	sql	sqlengine	Able to create a table with two or more primary key constraints.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53653	sql	sqlengine	SRDE: Sql statement fails if you have literal in comment
aus#53762	sql	sqlengine	Select for update fails in SP
aus#53767	sql	sqlengine	LongCharacterData: NTDBSMGR Crashes if SP called within a SP
aus#53789	sql	sqlengine	Errors using ADO/OLEDB via MSDASQL bridge from Delphi 7 and VB 6 apps
aus#53931	sql	sqlengine	Engine crashes during ADO tests
aus#53988	sql	sqlengine	SQLDescribeCol returns -1 instead of null for Octet_length
aus#50672	sql	sqlmgr	PCC:If you create a table without column name, view cant be created on this table.
aus#53173	sql	sqlmgr	SRDE regression crashed with older CI
aus#53215	sql	sqlmgr	Temp MKD files can be orphaned
aus#53368	sql	sqlmgr	PSQL9.50.042 on Linux: not able to access the DSN's
aus#53454	sql	sqlmgr	WGE server crashed in w3dbsmgr.exe
aus#51783	sql		Unexpected errors in SRDE regression results on Linux as client
aus#52320	sql		Fix uninitialized memory reads in sqlmgr/drm/srde shown under Purify
aus#52785	sql		Ordinal Position in the SQLColumns is returning wrong value,when retrived with 2 tables.
aus#52793	sql		GUID section of _XtcTable in express incorrect.
aus#52801	sql		SQL_C_Numeric structure is returning wrong value
aus#52814	sql		Inserting Numeric Value using SQLBindParameter is giving Incorrect values
aus#52815	sql		SQLGetData API with SQL_ARD_TYPE Binded numeric value is raising Exception.
aus#52819	sql		Foreignkey table refrenceing 2 primarykey table is giving wrong results with SQLForiegnkeys catalog function
aus#52821	sql		Changing the DSN name in the catalogname of the SQLProcedurecolumn is causing error
aus#52838	sql		SQL ROWSET SIZE in statement attribute is given greater than the inserted number of rows is giving application error.
aus#52839	sql		SQL ROWSET SIZE in statement attribute is given greater than the inserted number of rows is giving application error.
aus#52849	sql		Incorrect Bigint value is returned when binded to the SQL_C_CHAR datatype if the range is greater than 15 digits
aus#52861	sql		AllView test suite fails when executing SRDE regression first time.
aus#52872	sql		Caching procedures using temp tables causes errors.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#52892	sql		SRDE regression:Failure in InAnyExists.tst file after fix for bigint(bl#28218)
aus#52895	sql		SQLBulkoperations returns SQL error -1 in the SQL_ADD operation
aus#52918	sql		SRDE regression:In Linux Service crash while executing AllSP test suite
aus#52920	sql		Binding the numeric structure value to the Target Data type SQL_C_TIMESTAMP is giving wrong results
aus#52931	sql		Table creation using prepared statement fails
aus#52932	sql		Bulk updates using bookmarks causes a crash
aus#52977	sql		SRDE regression: On Windows AllSP test hang in the SP cache
aus#53006	sql		Prepare statement with TimestampADD function returns an error
aus#53099	sql		Lower version of PSQL Client (ODBC 2.x) does not display BigInt values
aus#53102	sql		JDBC Regression: Timestamp testcases failed
aus#53103	sql		Delete with Bindparameter for DateTime DataType is not working
aus#53124	sql		Existing ODBC applications that use bigint datatype fail
aus#53181	sql		Stored Procedures and Views are causing the crash,in Linux(server)-Windows(Client)on a secured Database
aus#53205	sql		Error message is not displayed when Nested SP executed twice
aus#53224	sql		SRDE Regression: SSP and UDF test suites crash on Linux
aus#53225	sql		UDF crashes on linux when DDL and DML statements exists inside SP/UDF
aus#53230	sql		Performing Bulk Inserts with SQL_DATA_AT_EXEC option,with SQLParamData is crashing
aus#53251	sql		SRDE reg on NW:"Numeric value out of range" error message during create/insert for BigInt DT
aus#53285	sql		SRDE Reg on NW: Abend is created when few testsuites run.
aus#53295	sql		Wrong error message when CONVERT style parameter not 20 or 120
aus#53296	sql		Convert function returns DATETIME milliseconds as 0000nnn
aus#53297	sql		CONVERT of DATETIME fails for certain data types
aus#53304	sql		Bindparameter with SQL_C_NUMERIC to larger value like 123456 is not working
aus#53319	sql		BigInt value inserted is not retrieving the data in Linux Local server environment
aus#53351	sql		The last line in the demodata.sql which is trying to create an index on Bit column should be commented out or removed.
aus#53377	sql		Change error message to help the user understand what is wrong, how to fix it

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53412	sql		Fixed Bookmarks with Rowover Concurrency and Forward only cursor is giving error.
aus#53462	sql		SET PASSWORD returns syntax error
aus#53481	sql		SRDE Backward Compatability test:Records are not retrieved with timestamp datatype
aus#53499	sql		creating index on table with in dictionary is failing.
aus#53542	sql		Opeations with page size 16384(more than 8k page size) is MicroKernel error = 24
aus#53560	sql		Improve temp table naming convention to provide more bytes for the actual temp table name
aus#53591	sql		psp_columns() stored procedure is not complete
aus#53699	sql		create table generated na error on the default clause
aus#53730	sql		Table with Uniqueidentifier datatype shoule not be created if the file version is <9.50 on WGE
aus#53753	sql		Call SP followed by nested SP with the same local temp table name throws error
aus#53790	sql		Tables not recognized after migrating from Windows to Linux
aus#52848	srde_tst	srde	Fix some testcases in ALLSP, ALTCOLALL,CAST, and TabSubQry due to the fix for blr#28218
aus#53227	utapps	bcfg	Linux: bcfg won't take quoted parameters
aus#53259	utapps	bcfg	bcfg: Allow bcfg to ignore errors
aus#52230	utapps	bdu	apparently bdu is loading an extra double quote in demodata.tuition.comments
aus#53239	utapps	bdu	BDU is inserting wrong values for datetime and timestamp datatypes
aus#53675	utapps	bdu	In Linux,during installation of PSQL Server,few Segmentation Faults related to 'BDU' are getting displayed while setting up Demodata DSN.
aus#53644	utapps	bmon	Monitor running to NetWare shows incorrect number of handles & files for MKDE resources
aus#50677	utapps	dbmaint	Util: Maintenance does not allow larger record with 8K pagesize
aus#53430	utapps	dbmaint	Maintenance Utility Information Editor window fails to save the information
aus#53678	utapps	dbmaint	The changed value of Page size to 512 while creating a file throws warnings in Maintenance Utility
aus#53834	utapps	dbmaint	The version details and the record length of the data file loaded using Maintenance Utility shows the wrong information.
aus#53850	utapps	dbmaint	The .mkd files loaded using Maintenance Utility displays warning as invalid microkernel file.

CR Number	Component	Subcomponent	CR Synopsis
aus#52266	utapps	ddfbuilder	DDFBuilder: Clicking on any cell in SQL Definition editor updates underlying model
aus#52271	utapps	ddfbuilder	DDFBuilder: DDF Builder application strings need to be externalized
aus#53627	utapps	dsnadd	Add open mode option to dsnadd
aus#53189	utapps	licenseadministrator	License administrator fails to remove the permanent license.
aus#53329	utapps	licenseadministrator	License administrator fails to remove the permanent license while using the short cut key R.
aus#53115	utapps	pvddl	We don't see any records under any of the tables in Demodata.
aus#53592	utapps	pvddl	pvddl to report errors through the ERRORLEVEL environment variable
aus#53799	utapps	pvddl	Pvddl command usage is not showing the -separator option.
aus#53900	utapps	queryplanviewer	Query Plan Viewer fails to work with PCC but works with ODBC test.
aus#53150	utapps	rebuild	Update cmdline Rebuild utility usage text to include -f9 and -95 options
aus#53316	utapps	rebuild	Rebuild fails when the file path has spaces
aus#53343	utapps	rebuild	Update the page size help text for rebuild utility
aus#53416	utapps	rebuild	Brebuild errored attempting to rebuild to 9.0 file format.
aus#53523	utapps	rebuild	Rebuild utility fails to work with File Format 9.0 and 9.5
aus#53657	utapps	rebuild	Rebuild utility fails to set the page size to 512.
aus#53671	utapps	rebuild	Load BREBUILD.NLM in Netware Local Server is not working.
aus#53735	utapps	rebuild	Rebuild utility fails to rebuild .DDF files.
aus#53946	utapps	rebuild	Brebuild utility is not renaming the rebuilt file after the successful rebuild operation
aus#53053	utapps		Merge tempdbddl code in demoddl
aus#53081	utapps		Remove comp/install/tempdb folder, which is no longer required
aus#53154	utapps		Demodata not created by install on w2k3 SMB server
aus#53216	utapps		bmon shows incorrect ClientID for Active Users
aus#53613	utapps		Rebuild Utility: Page size not getting set to 3072.
aus#53625	utapps		Rebuild: ALT + R does not remove the files from the window.
aus#53781	utapps		Windows GUI Maintenance utility cannot cope with description files with over 119 key segments
aus#53782	utapps		BUTIL (CLI Maintenance) cannot cope with description files with over 119 key segments
aus#53786	utapps		Butil in client-Server mode with Security enabled giving microkernel Error 1.
aus#53116	utcorefunc	upi	In the case where workgroup engine is automatically loaded, PCC throws an error when "Configure local engine" node is clicked
aus#53664	utcorefunc		The separator option spelled wrongly

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53411	utpcc	config	Apply button fails to work in the desired manner in Properties of MicroKernel Router Window.
aus#53744	utpcc	config	PCC: Edit table creates invalid "alter table" calls
aus#53832	utpcc	config	Primary key column creates additional column which does not exists in the table structure
aus#53838	utpcc	config	Comment statement throws error message.
aus#53871	utpcc	config	All the columns created are added with the lower boundary values without default constraint.
aus#53339	utpcc	console	Multi line comment statement fails to work.
aus#53391	utpcc	console	Database obtains permissions of Master after logging out from the server.
aus#53394	utpcc	console	Remote computer able to control the main computer even after the permission is denied.
aus#53438	utpcc	console	A new SQL query window, by clicking on the close button.
aus#53449	utpcc	console	Pervasive.SQL explorer fails to get refreshed and it does not display the list of tables listed under demodata database
aus#53455	utpcc	console	Unable to create primary key for Uniqueidentifier datatype.
aus#53461	utpcc	console	PCC allows to create table with constraints primary key and default implemented on the same column name.
aus#53475	utpcc	console	Enhancement CR: Execute statements in grid view displays the record in text view.
aus#53503	utpcc	console	Unable to enter a database name in the text box.
aus#53509	utpcc	console	Able to create a table name with blank spaces preceding the characters.
aus#53513	utpcc	console	Unable to delete a table name from the PCC console, which was created with data type uniqueidentifier.
aus#53524	utpcc	console	Unable to insert specific datetime formatted values through INSERT stmt.
aus#53525	utpcc	console	Able to delete primary key constraint table without deleting the foreign key table.
aus#53551	utpcc	console	A usability bug in Select Database Window.
aus#53580	utpcc	console	Able to obtain the deleted table back, after refreshing the Pervasive.SQL explorer window.
aus#53587	utpcc	console	Able to insert records into table with two or more primary key constraints.
aus#53590	utpcc	console	First Window of Create Table wizard contains Back and Finish Button
aus#53668	utpcc	console	PCC (Linux) unable to open a sql editor file when extension not specified
aus#53694	utpcc	console	Table created is not reflected in the Pervasive.SQL explorer window until and unless we click on the refresh button.
aus#53721	utpcc	console	Comma is not present between rename and modify.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53758	utpcc	console	Only lower boundary values get inserted into the table.
aus#53783	utpcc	console	Index not created for a Primary key constraint.
aus#53787	utpcc	console	After dropping a table, PCC opens the query window of the table.
aus#53881	utpcc	console	Enhancement: To remove the New option from the Table menu.
aus#53909	utpcc	console	Keywords not displayed in the desired format.
aus#53532	utpcc	sqldm	Longvarbinary adds a value zero to the records which are inserted and a letter F to the last.
aus#53680	utpcc	sqldm	PCC: Add "Execute" menu option to the SQL editor context menu
aus#51216	utpcc		PCC:Issues in table editor- Logging out of database should close open tables
aus#51245	utpcc		PCC:Problem with insert query.

aus#51980	utpcc		PCC is unable to enter string value with leading space
aus#52108	utpcc		PCC-Refreshing database node removes Japanese named database
aus#52283	utpcc		PCC: Add preference to PCC which allows user to select seperator char
aus#52294	utpcc		PCC hangs when you edit the schema of a table if the data file is missing
aus#52295	utpcc		PCC SQL results grid won't take floating-point values
aus#52296	utpcc		PCC Create Table panel can close without saving
aus#52431	utpcc		PCC: Update SQL editor SQL syntax help
aus#52547	utpcc		PCC: PCC grid not "linking" to SQL Editor if the editor has no name
aus#52686	utpcc		SQL resultset not editable when filter is used in select statement
aus#52967	utpcc		PCC should display complete SQL statement syntax
aus#52987	utpcc		PCC throws exception on Japanese system if windows-31j encoding not available
aus#52998	utpcc		PCC: Rework the SQL statement separator preference page
aus#53013	utpcc		PCC shows that a table that is in use is deleted successfully even though the table is not deleted
aus#53082	utpcc		PCC: LoginException if db login dialog box is canceled
aus#53085	utpcc		PCC's New Database dialog is broken.
aus#53086	utpcc		Unable to create Database through PCC
aus#53096	utpcc		PCC is showing the temp tables under tempdb database
aus#53131	utpcc		Closing outline pane in PCC causes SQL grid not to execute
aus#53133	utpcc		PCC no longer shows leading or trailing spaces
aus#53192	utpcc		Comment in middle of SQL statement does not work in PCC

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53204	utpcc		Unable to create New database on the PSQL client using the File menu option
aus#53284	utpcc		After an Upgrade from V8.10 WGE to V9.5 WGE,when we open PCC and double click on hostname,then the PCC image is flashing before showing the Databases folder.
aus#53313	utpcc		Create new database dialogue in PCC has Version 1 metadata size wrong
aus#53314	utpcc		Create new database dialogue in PCC has a metadata selection dialogue
aus#53326	utpcc		Default file extension is not taken while saving the SQL query.
aus#53359	utpcc		In Linux 2.6 Kernel,if we open PCC and click on the databases,its throwing error
aus#53362	utpcc		In Linux,PCC is throwing an error,when we do a tar installation of PSQL V9.5 Client.
aus#53435	utpcc		Tools option in PCC is only loaded with ODBC Administrator after a PSA WGE upgrade
aus#53436	utpcc		The minimize option disabled for all the options in Properties for Demodata window
aus#53437	utpcc		Database Security option in the Properties for Demodata should have an error message on clicking apply.
aus#53447	utpcc		In Netware,Unable to view the data in the tables of Demodata consistently.
aus#53448	utpcc		Error saving permissions for users in a group for create table permission in WGE
aus#53463	utpcc		# terminator not enabled by default
aus#53464	utpcc		The type column in the table grid does not change with the tab and typing in the first alphabet of a datatype during new table creation
aus#53471	utpcc		PCC: Allow user to execute statements which have been selected in the SQL editor
aus#53567	utpcc		Delete is repeated twice in the options list in PCC
aus#53589	utpcc		AM displays read operation audit of old inspite of it being modified.
aus#53757	utpcc		PCC: Edit table editor needs "Set Primary Key" action in right-click menu.
aus#53811	utpcc		Can't edit or add data or dictionary paths of a database on NetWare server from PCC
aus#53989	utpcc		Table entry not removed from system tables after the table is deleted from PCC
aus#49461	utwizards	psa	PSA Transaction Test reports Linux servers as being Pervasive.SQL Win32 Engine

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#52926	utwizards	psa	When PSQL WGE is installed on Win XP Pro, Archiving using Advanced search is showing V8 folder also for archival and many system files under undetermined release folder.
aus#52930	utwizards	psa	After doing WGE Upgrade from V8.7 to V9.5 in WinXP Home, when we try to perform an archive of V9.5, it's not working fine.
aus#53088	utwizards	psa	When we try to archive PSQLV9.5 Client using QuickSearch on WinXPHome, then many files under pvs\bin such as jnibtrv.dll, mkde folder, pccfg folder etc.. are remaining.
aus#53171	utwizards	psa	PSA needs to clean up more NW components
aus#53231	utwizards	psa	When we upgrade PSQL WGE from V2000i to V9.5, Microkernel Workstation Engine entry is remained under Pervasive Software in Registry.
aus#53232	utwizards	psa	During Upgrade from V8.1 to V9.5, If we archive V9.5 and restore V8.10, then Pervasive entry under Startmenu>Programs> is getting remained.
aus#53234	utwizards	psa	After upgrading PSQLV8.10 Server to PSQL V9.5 Server, when we try to archive V9.5 and restore V9.5, an exe screen flashes for a fraction of second before coming to the Finish screen of Restore.
aus#53235	utwizards	psa	Once we stop PSQL Relational Service, run PSATests and start PSQL Relational Service and again run PSA Tests, then PSA Relational test is failing.
aus#53267	utwizards	psa	Application error while using PSA with the normal installation of PSQL 9.5
aus#53289	utwizards	psa	Change of LOG File Path and deselecting the "Append to log file" option in PSA raises an error and next the RESTORE options window is shown
aus#53345	utwizards	psa	Silent archive of WGE in WIN98 is leaving many files under pvs\bin and even we can view the engine icon in the system tray as W3dbsmgr.exe is present under bin.
aus#53424	utwizards	psa	A window prompts for WGE stoppage with the Restore operation after a PSA WGE upgrade
aus#53429	utwizards	psa	An error thrown when we click on tempdb in PCC after the PSA Restore of a WGE upgrade
aus#53508	utwizards	psa	The cancel button should be in disabled mode during the ongoing archival process in PSA
aus#53541	utwizards	psa	In Win 98 Russian, many DLL'S (7 DLL'S except PSCL2, PSCORE2) are not getting installed under pvs\core folder. Becoz of this Network Communication test is failing.

PSQL v9 SP2 History Notes

CR Number	Component	Subcomponent	CR Synopsis
aus#53552	utwizards	psa	A window prompts for WGE stoppage with the Analyze or Archive option after a PSQL WGE upgrade
aus#53563	utwizards	psa	An error message is displayed at the end of PSA Restore process on W98
aus#53729	utwizards	psa	PSA Communication Test Results Page Links don't work
aus#53807	utwizards	psa	PSA Archive running with PTKSETUP.INI ignores location
aus#53837	utwizards	psa	PSA Relational test from 9.5J client to 9.11J server fails
aus#53320			NW6 has crashed running stress tests
aus#53630			Engine type returned by B_VERSION call for Linux is giving wrong value.
